University of Bergen, Norway

**HPSource.net**

*The Health Promotion Discovery Tool*

# WP 5 -- [www.HP-Source.net](http://www.HP-Source.net)

- Objectives Building Capacity Project
  - Maintain and extend a user friendly Internet data base inventory of country experiences with alcohol policies, including country infrastructures, laws and regulations, experiences and practices
    - Check that all of the data is up to date
    - Extend the database to all 31 countries involved in the project
    - Complete all of the data for all of the countries
    - Analyse the data and prepare a number of reports based on the data

# WP 5 -- [www.HP-Source.net](http://www.HP-Source.net)

- Status
  - Two new modules are set up and online
    - Alcohol Policy
    - Prevention of the Harm Done by Alcohol
  - All previous data has been transferred from the BtG database
  - The site has been quality controlled (e.g., links checked, fixed)

# WP 5 -- New modules – [www.HP-Source.net](http://www.HP-Source.net)

- Alcohol Policy
  - Background information
  - Politics, policies and priorities
    - Definition of an alcoholic beverage:
    - Trade and cross border shopping
    - Licensing
    - Availability
    - Age of purchase
    - Commercial communications
  - Evaluation

  - Knowledge development
  - Implementation
  - Programmes
  - Professional workforce
  - Funding
  - Personal evaluation of the state of the field

# WP 5 -- New modules – [www.HP-Source.net](http://www.HP-Source.net)

- Prevention of the harm done by alcohol
  - Background information
  - Politics, policies and priorities
    - Drinking and driving
    - Consumer labelling
    - Education
    - Public education campaigns
    - Drinking environments
    - Advice and treatment
  - Evaluation
  - Monitoring and/or surveillance
  - Knowledge development
  - Implementation
  - Programmes
  - Professional workforce
  - Funding
  - Personal evaluation of the state of the field

# WP 5 -- New modules – [www.HP-Source.net](http://www.HP-Source.net)

- Further steps
  - Complete and update all of the data
  - Expand the database to all of the countries
  - Analyse the data and prepare a number of reports based on the data
    - A researcher has started to work with the data
    - The existing data are ready for analysis by all who are interested!
